INTRODUCTION

Fitness Club Website is One Stop Solution Where Any Fitness Enthusiastic Can Track and Plan There Workout Easily. On Our Site We Have Provided Links of BMI Calculator, Calorie Calculator, Body Fat Calculator, & BMR Calculator.

Theme of the site:

When We Were Drafting the Site for The Project Topic **Fitness Tracking & Workout Planner Web Application**, We Decided to Create A website of a gym. We named The Gym as Fitness Club and then Proceeded with Drafting the Basic Structure of the site Using HTML5.

As Discussed Above the Website Theme is Based on a Gym Website so, We Tried to Keep the Home Page/ Landing Page Attractive and User Interactive and We Have also Added One Joining Form Through Which User Can Fill the Form and After Receiving the Data the Gym Owner will Contact the Customers. Other Than This We Have Added Other Pages Such as:

1. **About Our Gym:** In This Page We Have Added Detailed Information About the Gym Through Which any User/Customer Will Come to Know About the Fitness Club Gym.
2. **BMI Calculators:** On This Page We Have Added BMI Calculators Which Will Calculate and Show BMI of the Person by Taking User Input for Weight and Height
3. **Fitness Planner:** On This Page User Can Enter the Fitness Activity Name and Duration Time He Want to Do and It Will Show Below the Form and Through this He Can Monitor and Plan His/her Fitness Activity
4. **Contact Page:** At The End We Have Given a contact Page on Which There Is One Contact Form by Filling That User Can Share / ask Any Doubt or Query They have Related to Fitness Club Gym. Other Than This on Home Page We have Added Two Option Call Us Now/ Email Us, on Clicking This also Users Can Contact the Gym Owner.

Technologies used

To Create the Fitness Club Website, We Have Used HTML5, CSS & Java Script Functions.

1. **HTML5 (Hyper Text Markup Language)**

HTML, or Hyper Text Markup Language, is the standard language used to create and design webpages. To Create the Website, We Used **HTML5** to Draft the Basic Structure of the site. We have used many HTML tags to create this website such as:

- div
- label
- img
- p
- a

- ul
- header
- h1
- form
- input

2. **CSS(Cascading Style Sheets)**

To Enhance the look and feel of the Fitness Club Website We Have Used CSS (Cascading Style Sheets) Properties. The CSS Properties That We have used to Design the site are:-

- I. To set the background image of our website perfectly, we have used these types of properties such as:-

- background-color
- Background-Image
- Background-Position
- Background-Size
- Background-Repeat

II. For Text decoration, we have used these types of properties such as:-

- color
- font-size
- font-weight
- text-align
- text-decoration
- font-family

III. For setting out the width, height, logo, headings we have used these types of properties such as:-

- Padding
- margin
- width
- height
- Position
- Display
- outline

- left
- top
- border-radius
- box-shadow
- backdrop-filter
- flex-wrap
- border

3. Java Script

JavaScript is also used to give Brain of Any Website. We have used Java Script to Create Two Function and One BMI Calculator and one Fitness Planner on our Website These are Mentioned Below:

1. On Our Home Page and on contact Us Page We Have Created Form to collect data on Clicking Submit Button User Will be Informed That the Data has Been Received Successfully in the backend for giving this alert we have used alert() function of Java Script.
2. To make sure that all The Fields of the Form on Home and Contact Us page are filled properly we have used checkvalidity() function of Java Script.
3. To Create the BMI Calculator, we have used Mathematics Functions of Java Script and for Fitness Planner We Have used List Function of Java Script.

Modules

In Our Fitness Club Website, We Have Integrated Java Script Module on our Two Forms Which are available on Home Page and Contact Us Page and Have Created BMI Calculator & Fitness Activity Planner.

1. Home Page

After Filling the form When the user Will Click on Submit Button. The Browser will Pop Up with a Message “***Thank You, Data Received***”. Which Will inform The User That Their Data Have Been Successfully Submitted to us. To add This Function, We Have used Java Script using ID that We have Given to Form and added `onclick="submitForm()"` in Submit Button and then added `alert()` Function to Provide Alert as Pop Up

Code Snaps:

i. Form ID

```
<form id="myForm">
```

ii. Submit Button

```
<button class="btn" type="button" onclick="submitForm()" >Submit</button>
```

iii. Java Script

```
<script>
    function submitForm() {
        var form = document.getElementById("myForm");
        if (form.checkValidity())
        {
            alert("Thank you, Data Received");
            form.reset();
        } else {
            form.reportValidity();
        }
    }
</script>
```

2. Contact Us:

After Filling the Contact form When the user Will Click on Send Button. The Browser will Pop Up with a Message “**Thank You, Data Received**”. Which Will inform The User That Their Form Have Been Successfully Submitted to us. To add This Function, We Have used Java Script using ID that We have Given to Form and added **onclick="submitForm()"** in Submit Button and then added alert() Function to Provide Alert as Pop Up

Code Snaps:

i. Form ID

```
<form id="contactForm">
```

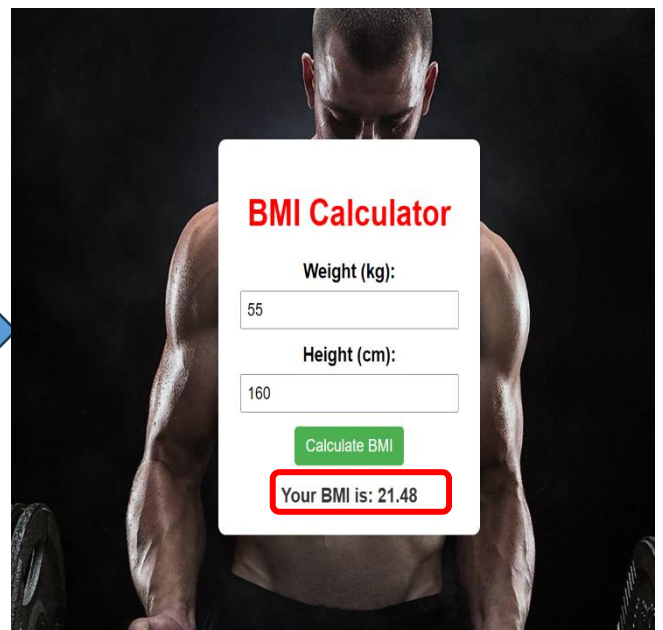

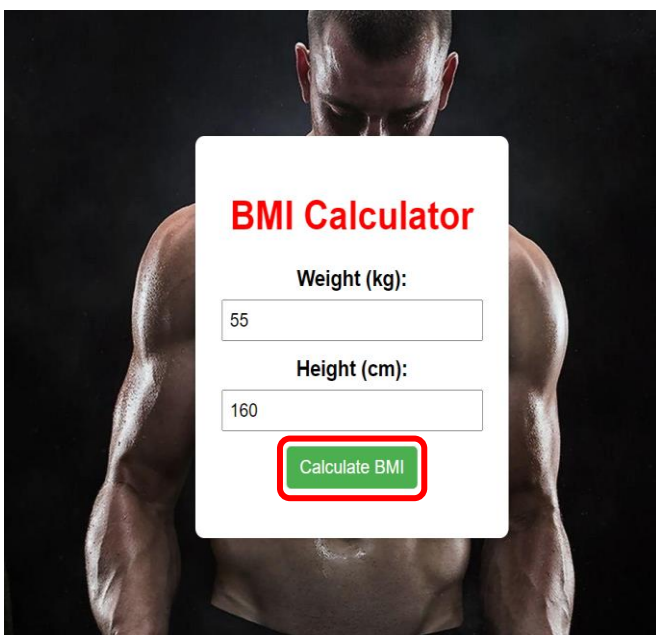

ii. Submit Button

```
<input type="submit" value="Send" id="button" onclick="submitForm()">
```

iii. Java Script

```
<script>
    function submitForm() {
        var form = document.getElementById("contactForm");
        if (form.checkValidity()) {
            alert("Thank you, Data Received");
            form.reset();
        } else {
            form.reportValidity();
        }
    }
</script>
```

3. BMI Calculator:

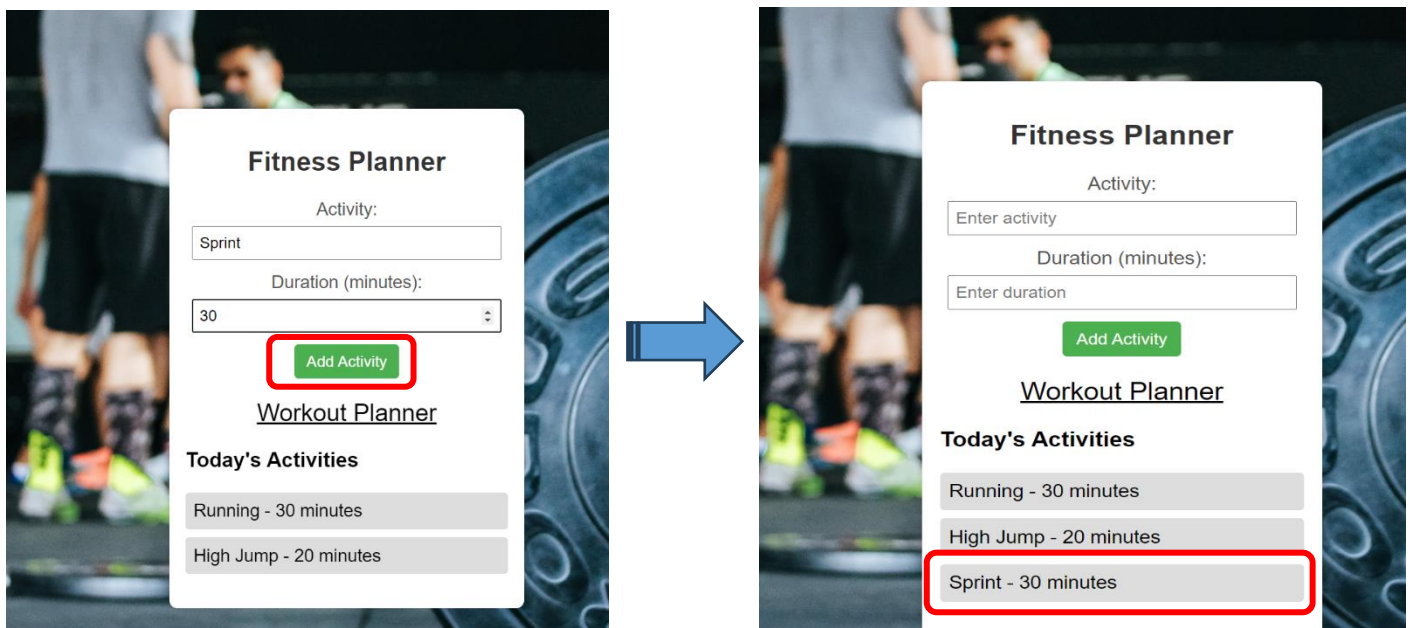

After Filling Weight and Height When User Will Click on Calculate BMI, The Page Will Show a Text Message as “**Your BMI Is: (BMI)**” The Basic Structure Is Drafted Using HTML and For Beauty We Have used CSS. For The Calculation Part we Have used Functions of Java Script.

Code Snaps:

I. Java Script:

```
<script>
  function bmire() {
    var weight = document.getElementById("weight").value;
    var height = document.getElementById("height").value;
    if (weight === "" || height === "") {
      alert("Please enter both weight and height.");
      return;
    }
    var bmi = (weight / ((height / 100) * (height / 100))).toFixed(2);
    var resultElement = document.getElementById("result");
    resultElement.innerHTML = "Your BMI is: " + bmi;
  }
</script>
```

4. Fitness Planner:

We Have Created One Fitness Planner Page Where User Can Plan and Enter the Details of Exercise, He or She Have done with Time Duration in Minutes. To Add the Activity User Just have To Enter Activity Name and Duration in Minutes and Have to just click on Add Activity and it will be added Below **Today's Activity** Section. The Basic Structure Is Drafted Using HTML and For Beauty We Have used CSS. For Showing the Activity Below **Today's Activity** Section We Have used **List Function** of Java Script.

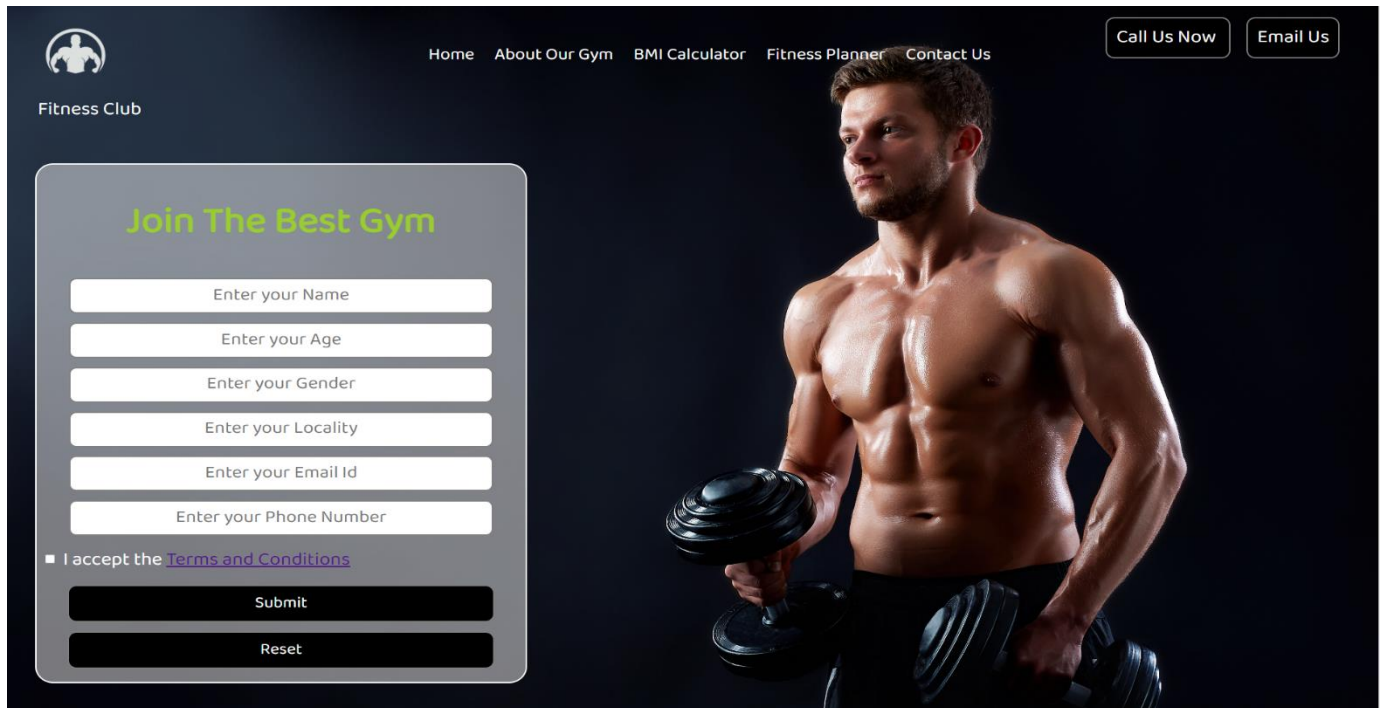

Code Snaps:

i. Java Script

```
<script>
  function add() {
    var activity = document.getElementById("activity").value;
    var duration = document.getElementById("duration").value;
    if (activity === "" || duration === "") {
      alert("Please enter both activity and duration.");
      return;
    }
    var activityList = document.getElementById("activityList");
    var listItem = document.createElement("li");
    listItem.textContent = activity + " - " + duration + " minutes";
    activityList.appendChild(listItem);
    document.getElementById("activity").value = "";
    document.getElementById("duration").value = "";
  }
</script>
```

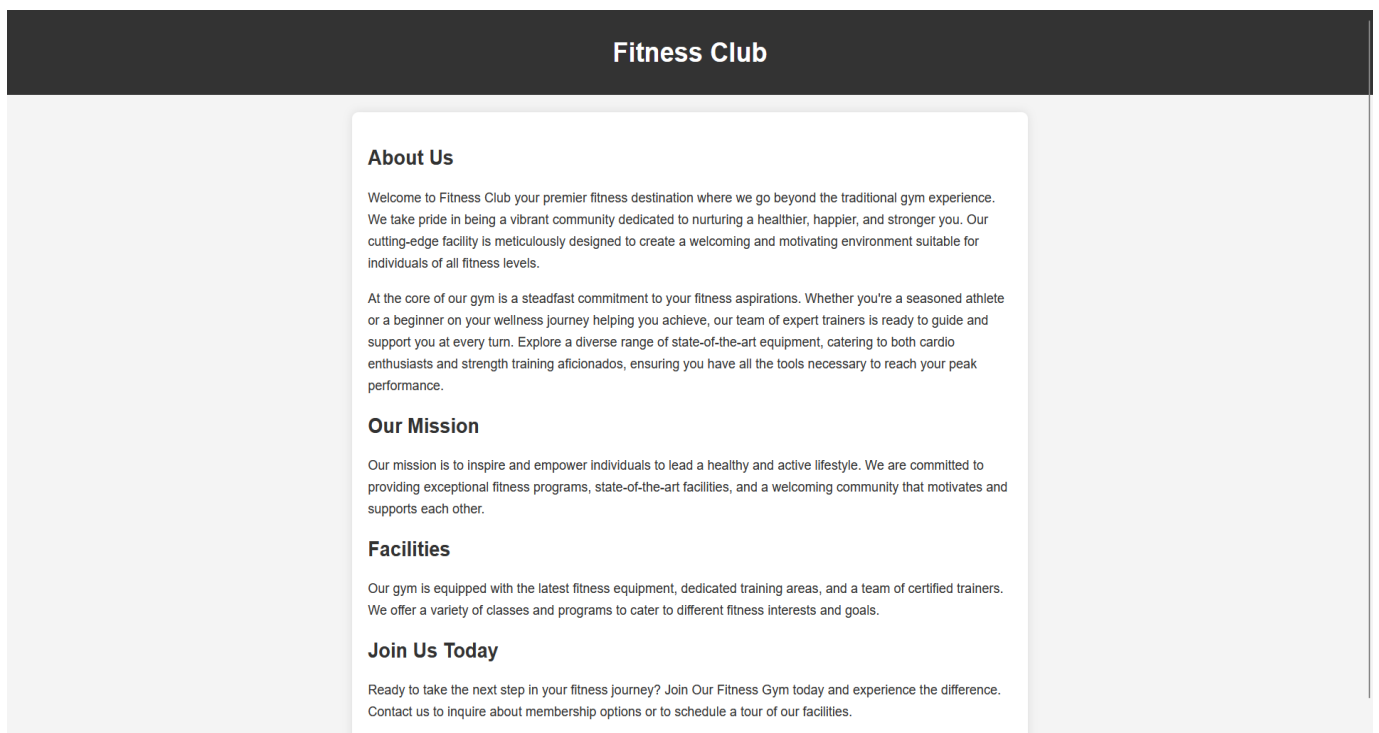

Website Snapshots:

1. Home Page

The Home Page of the Fitness Club website features a dark blue header with a logo on the left and navigation links (Home, About Our Gym, BMI Calculator, Fitness Planner, Contact Us) in the center. On the right, there are two buttons: "Call Us Now" and "Email Us". Below the header, the text "Fitness Club" is displayed. The main content area is split into two sections. On the left, there is a light gray box titled "Join The Best Gym" in green. This box contains a registration form with six input fields: "Enter your Name", "Enter your Age", "Enter your Gender", "Enter your Locality", "Enter your Email Id", and "Enter your Phone Number". Below these fields is a checkbox labeled "I accept the" followed by a link to "Terms and Conditions". At the bottom of the form are two buttons: "Submit" and "Reset". On the right side of the page, there is a large, high-quality photograph of a muscular man with a beard, shirtless, holding two black dumbbells. He is looking off to the side with a focused expression.

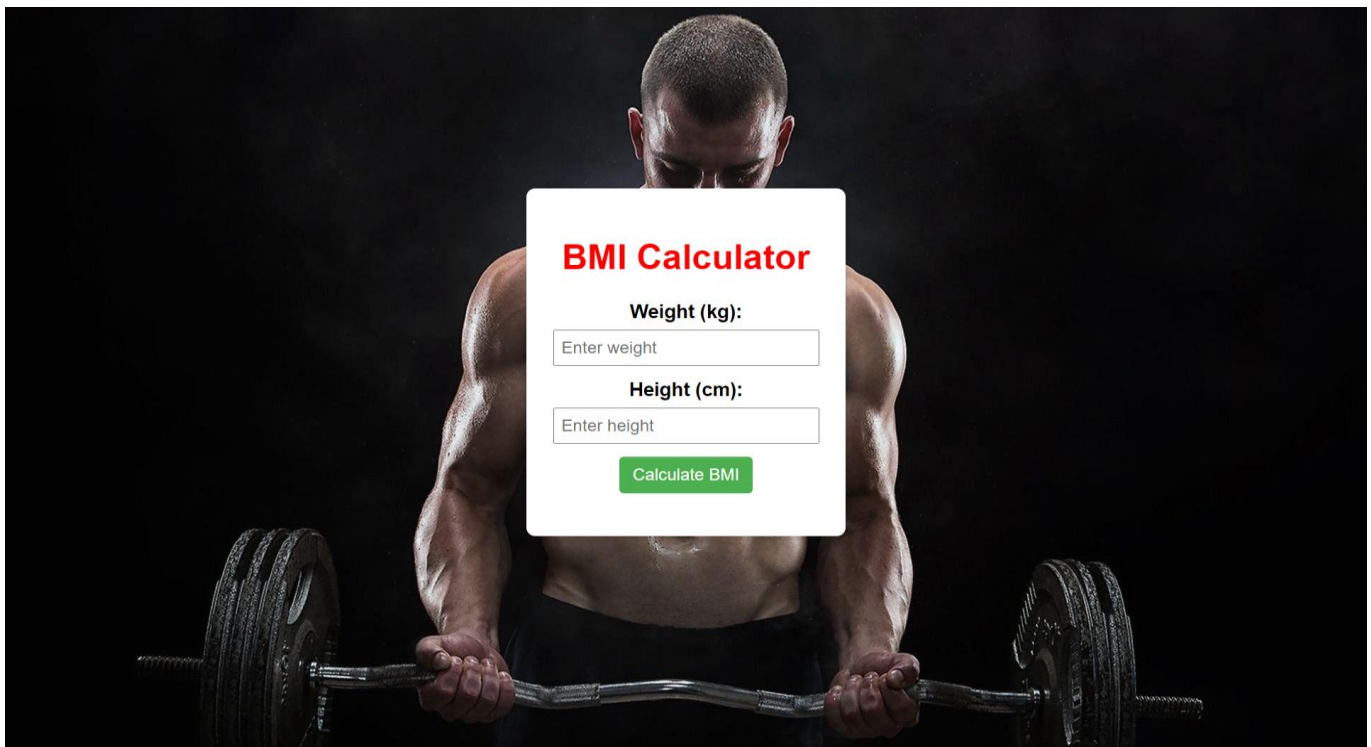

2. About Our Gym Page

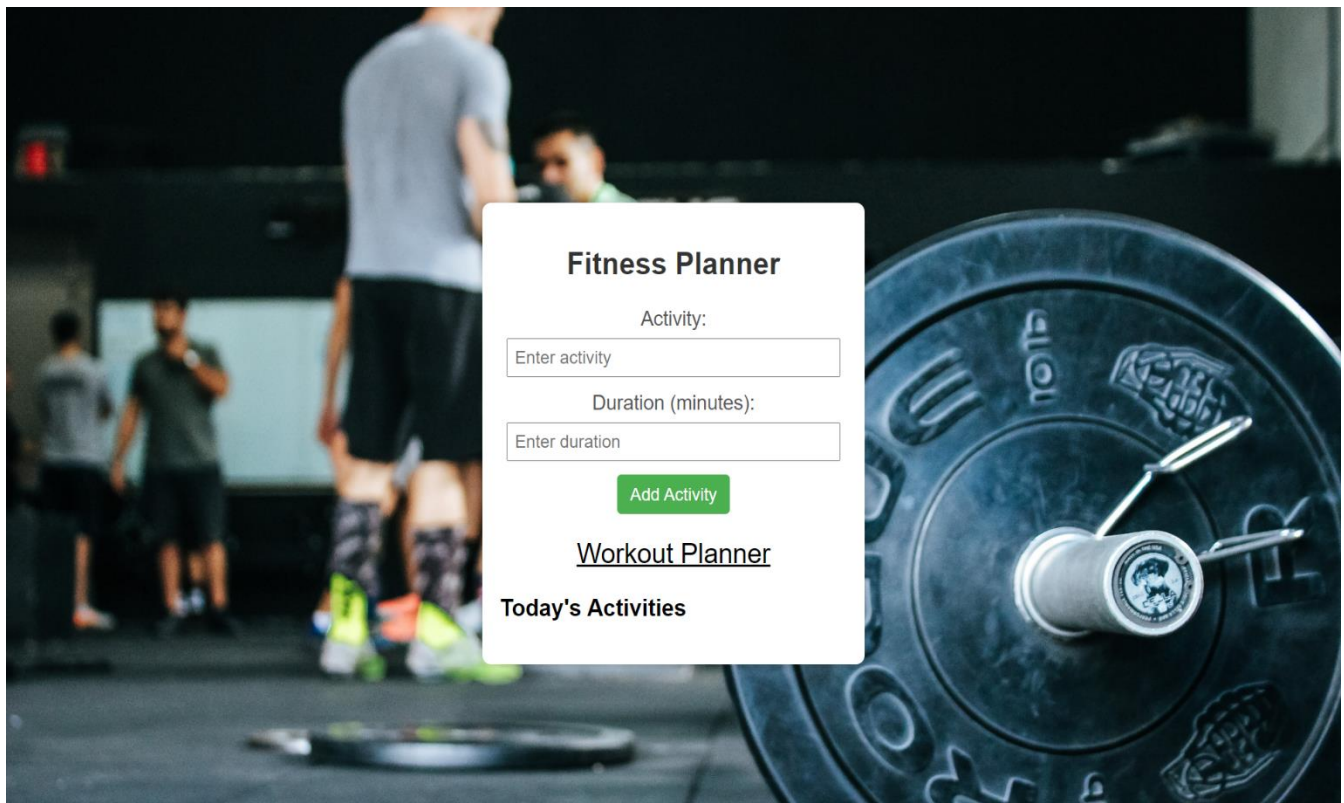

The About Our Gym page has a dark gray header with the text "Fitness Club" in white. The main content area is light gray and contains a white box with the following sections:
About Us
Welcome to Fitness Club your premier fitness destination where we go beyond the traditional gym experience. We take pride in being a vibrant community dedicated to nurturing a healthier, happier, and stronger you. Our cutting-edge facility is meticulously designed to create a welcoming and motivating environment suitable for individuals of all fitness levels.

At the core of our gym is a steadfast commitment to your fitness aspirations. Whether you're a seasoned athlete or a beginner on your wellness journey helping you achieve, our team of expert trainers is ready to guide and support you at every turn. Explore a diverse range of state-of-the-art equipment, catering to both cardio enthusiasts and strength training aficionados, ensuring you have all the tools necessary to reach your peak performance.
Our Mission
Our mission is to inspire and empower individuals to lead a healthy and active lifestyle. We are committed to providing exceptional fitness programs, state-of-the-art facilities, and a welcoming community that motivates and supports each other.
Facilities
Our gym is equipped with the latest fitness equipment, dedicated training areas, and a team of certified trainers. We offer a variety of classes and programs to cater to different fitness interests and goals.
Join Us Today
Ready to take the next step in your fitness journey? Join Our Fitness Gym today and experience the difference. Contact us to inquire about membership options or to schedule a tour of our facilities.

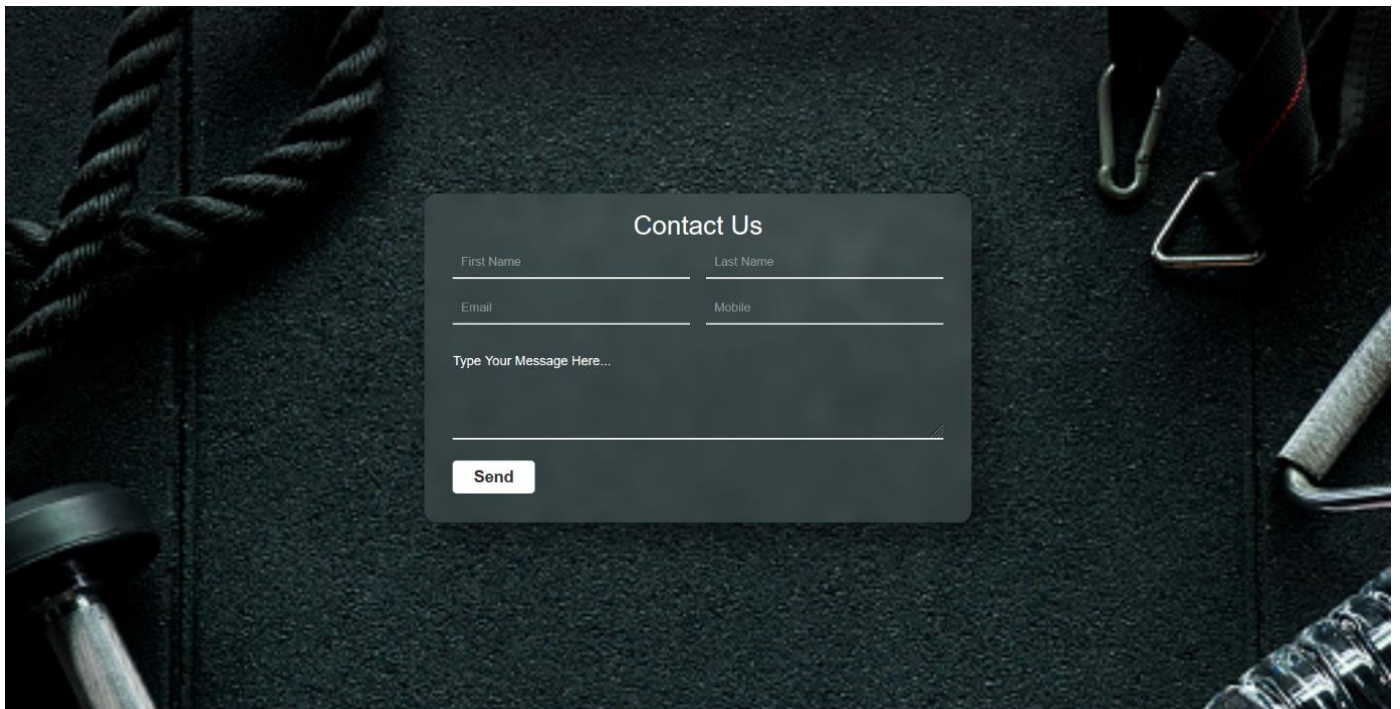

3. BMI Calculator Page

4. Fitness Planner Page

5. Contact Us Page

The image shows a 'Contact Us' form overlay on a dark, textured background featuring nautical elements like rope and metal hardware. The form is a dark gray rectangle with rounded corners. It contains the following fields and elements:

- Title:** 'Contact Us' centered at the top of the form.
- First Name:** A text input field on the top left.
- Last Name:** A text input field on the top right.
- Email:** A text input field on the bottom left.
- Mobile:** A text input field on the bottom right.
- Message:** A large text area labeled 'Type Your Message Here...' with a diagonal line icon at the bottom right corner.
- Send Button:** A white button with the text 'Send' located at the bottom left of the form.
